

Ideation Phase

Brainstorm & Idea Prioritization Template

Date	16 June 2026
Team ID	Srimai Gopala
Project Name	BOOK A DOCTOR
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization Template:

Step-1: Team Gathering, Collaboration and Select the Problem Statement

Book-A-Doctor is an online application based on the MERN stack that can be used for managing healthcare. This application was developed by one person in his capacity as a college project. The problems that were encountered in this field included the fact that the patients have difficulties in verifying doctors, scheduling appointments, and tracking consultation requests.

Brainstorm & idea prioritization

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

🕒 10 minutes to prepare
🕒 1 hour to collaborate
👥 2-5 people recommended

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

🕒 10 minutes

- 1 Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.
- 2 Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.
- 3 Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

1 Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

🕒 5 minutes

PROBLEM

How might we build a simple and secure online shopping platform where users can browse products, manage their cart, and place orders — while admins can manage the entire store efficiently?

Key rules of brainstorming

To run a smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

Step-2: Brainstorm, Idea Listing and Grouping

Total 12 ideas were generated for addressing the above-stated problem. They were categorized under the headings of Patient Module, Doctor Module, Admin Module, and Appointment Management Module.

2

Brainstorm

Write down any ideas that come to mind that address your problem statement.

⌚ 10 minutes

Type your paragraph

Doctors should approve appointment requests

TIP

You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

- | | | | |
|--|--|--|--|
| 1.Users should be able to register and login securely. | 2.Doctors should be able to register their accounts. | 3.Doctors should complete profile onboarding. | 4.Admin should verify doctor applications. |
| 5.Admin should verify doctor applications. | 6.Patients should be able to book appointments. | 7.Doctors should approve appointment requests. | 8.Doctors should reject appointment requests. |
| 9.Patients should view appointment history. | 10.Patients should cancel appointments. | 11.Admin should manage doctors and bookings. | 12.Appointment status should update automatically. |

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you can break it up into smaller sub-groups.

🕒 20 minutes

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas or themes within your mural.

Step-3: Idea Prioritization

All 12 brainstormed ideas were prioritized according to their significance and practicality. Key features including patient registration, doctor registration, doctor authentication, doctor search, and appointment booking have been assigned a high priority rating. Approval/rejection of the appointments by the doctors was considered equally important. All future improvements like reminders, online consultation, and payments were assigned a low priority rating and will be incorporated in the future versions of the website.

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

🕒 20 minutes

TIP

Participants can use their cursor to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer, moving the H key on the keyboard.
