

Project Design Phase
Proposed Solution Template

Date	16 June 2026
Team ID	Srimai Gopala
Project Name	Book A Doctor
Maximum Marks	2 Marks

Proposed Solution Template: Project team shall fill the following information in the proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Patients struggle to find qualified doctors as well as booking appointments. Doctors require a systematic way to schedule appointments, and administrators need an application to certify doctors and monitor their actions.
2.	Idea / Solution description	This Book-A-Doctor is a MERN stack website that allows patients to search for doctors based on their specialization, make bookings, track booking status, and allow doctors and administrators to monitor health care activities using dashboards.
3.	Novelty / Uniqueness	The platform integrates Patient, Doctor, and Admin modules in a single system with doctor verification, appointment approval/rejection workflow, and role-based dashboards for efficient healthcare management.
4.	Social Impact / Customer Satisfaction	The solution improves healthcare accessibility, reduces appointment booking time, increases patient convenience, and provides a reliable system for managing medical consultations.
5.	Business Model (Revenue Model)	Revenue can be generated through doctor registration fees, premium healthcare services, featured doctor listings, consultation commissions, and healthcare partnership programs.
6.	Scalability of the Solution	The system can be expanded to support multiple hospitals, online consultations, digital prescriptions, payment gateway integration, mobile applications, and large-scale healthcare networks.
